Pre-Surgical Blood Testing

Please read carefully

Prior to surgery, our team will examine your pet. However, many conditions, including disorders of the liver, kidneys, or blood are not detected unless blood testing is performed. These disorders could lead to unforeseen complications during the procedure; therefore, we STRONGLY recommend blood work prior to ANY surgical procedure. We do **REQUIRE** blood testing for pets 10 years and older or whenever the doctor determines it necessary prior to surgery.

_____ My pet is UNDER 10 years of age with no know pre-existing conditions, I understand the risks associated with the procedure, and decline blood testing.

_____ My pet HAS HAD blood testing prior to this appointment, I have been informed of the results and told it is ok to move forward with today's procedure.

SURGICAL CONSENT

I hereby authorize Dr. Kelly's Surgical Team to provide veterinary medical, surgical, and/or dental care to my pet. I understand the nature of today's procedure(s) and have had the opportunity to ask questions pertaining to possible side effects, risks, and difficulties. I am aware that complications may arise during surgery, and no guarantees have been made or implied concerning the results of the surgery. I understand Dr. Kelly's Surgical Unit is not responsible for any costs that may come as a result of surgical complications. I acknowledge I have read and fully understand this Surgical Consent and agree to proceed with the scheduled surgery today.
